I hereby certify that I have prepared this thesis independently in all parts and have not used any sources and aids other than those specified in the thesis, and that the thesis has not been presented in the same or a similar form in any other examination. All verbatim or analogous citations and quotations, as well as all sections that were designed, written and/or edited using AI-based tools, are identified and verified.

I have listed all AI-based tools in the appendix of my thesis. These are listed with product names and formulated inputs (prompts) in an AI directory. I confirm that I have not used any AI-based tools whose use has been explicitly excluded in writing by the examiner. I am aware that the use of texts or other content and products generated by AI-based tools does not guarantee their quality. I am fully responsible for the adoption of any machine-generated passages used by me and bear responsibility for any incorrect or distorted content generated by the AI, incorrect references, violations of data protection and copyright law or plagiarism.

I also assure you that my creative influence predominates in this work.
